

## SAFETY DATA SHEET

Date of Original Issue: 26OCT2012

Revision Number: 4

Revision: 30NOV2023

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

**Product name:** Bacitracin Zinc

**CAS #:** 1405-89-6

**EC/List#:** 215-787-8

**INDEX #:** Not listed

**REACH reg. #:** the amount does not reach the limit

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Product Use:** Pharmaceutical product used as antibiotic agent.

#### 1.3. Details of the supplier of the safety data sheet

##### Manufacturer (Non-Sterile)

Xellia (Taizhou) Pharmaceutical Co. Ltd

108 Binhai Road

Jiaojiang Taizhou Zhejiang 318000 PRC

People's Republic of China

+86 57-688827026

Responsible person for the safety data sheet (e-mail): sales@xellia.com

##### Distribution (Sterile)

Xellia Pharmaceuticals ApS

Dalslandsgade 11

2300 Copenhagen S

Denmark

+45 3264 5500

#### 1.4. Emergency telephone number

**Poison Control Center (USA):** +1 877 800 5553

**CHEMTREC (USA Transportation):** +1 800 424 9300

**CANUTREC (Canadian Transportation):** +1 613 996 6666

<http://apps.who.int/poisoncentres/>

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008:

Skin Sens 1.

#### 2.2. Label elements

WARNING

H317: May cause an allergic skin reaction.

P261: Avoid breathing  
dust/fume/gas/mist/vapors/spray.

P272: Contaminated work clothing should not be allowed out of the workplace.  
 P302+P352: IF ON SKIN: Wash with soap and water.

P333+P313: If skin irritation or a rash occurs: Get medical advice/attention.  
 P362 +P364: Take off contaminated clothing and wash it before reuse.

### 2.3. Other hazards

The substance is not considered PBT/vPvB according to criteria in Annex XIII neither has properties of endocrine disruption.

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Active component	CAS #	EC/List #
Bacitracin Zinc	1405-89-6	215-787-8

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

**General information:** Remove the injured person from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health practitioner or other licensed health care provider familiar with chemical exposure in the workplace. If the person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons with severe hypersensitivity (anaphylactic) reactions should receive immediate medical attention.

**Eye contact:** Flush eyes for 15 minutes with plenty of water. Remove contact lenses, if any, and this is easy to do. Continue rinsing. Consult a specialist if irritation develops and persists.

**Skin contact:** Remove contaminated clothing and clean before reuse. Wash all exposed areas of skin with plenty of soap and water. Get medical attention if irritation or rash develops. In case of eczema or other skin diseases, consult a doctor.

**Ingestion:** After ingestion of large amounts, call a poison center or doctor. Do not induce vomiting. Wash your mouth. Do not give anything orally to an unconscious person. Consult a doctor if symptoms occur. When vomiting, keep your head low so that stomach contents do not get into the lungs.

**Inhalation:** The person concerned should be taken out to the fresh air and placed in a resting position such that he or she can breathe easily. If the injured person is unconscious and not breathing: Ensure that there are no obstructions in the airways and have artificial respiration performed by appropriately trained persons. If necessary, apply external heart massage and consult a doctor. If breathing remains difficult, consult a doctor.

### 4.2. Most important symptoms and effects, both acute and delayed.

**Symptoms and Effects of Exposure:** May cause an allergic skin reaction.

**Medical Conditions Aggravated by Exposure:** None

### 4.3. Indication of any immediate medical attention and special treatment needed.

General support measures, symptomatic treatment.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

Water, carbon dioxide, dry chemical, foam, or other alternatives.  
Fire extinguishing agents not suitable for safety reasons: none.

### 5.2. Special hazards arising from the substance or mixture.

General hazards: No unusual fire or explosion hazards were detected.  
Unsuitable extinguishing media: None  
Specific methods: Not available.

### 5.3. Advice for firefighters

Wear appropriate protective equipment. Use water spray to cool unopened containers. As with any fire, evacuate personnel to a safe area.

---

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment, and emergency procedures

Keep away unnecessary personnel. Wear appropriate protective equipment. Avoid inhaling dust from spills. Do not touch damaged containers or spills unless you wear appropriate protective clothing. Ensure adequate ventilation. Dust deposits should not accumulate on surfaces, as they can form explosive mixtures if released into the atmosphere in appropriate concentrations. For personal protection, see Section 8 of the Safety Data Sheet.

### 6.2. Environmental precautions

**Water spill:** In case of intrusion into inland waters or sewers, notify the competent authorities. Do not allow to enter sewer/surface water/groundwater.

### 6.3. Methods and materials for containment and cleaning up.

Avoid dust build-up during cleaning. Spilled material must be swept or vacuumed and collected in a suitable container for disposal. To remove residual dirt, thoroughly clean the surface. For waste disposal, see section 13 of the safety data sheet.

### 6.4. Reference to other sections

See section 1 for emergency contact information, section 8 for personal protective equipment details, and section 13 for disposal information.

---

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

**For large quantities:** To ensure adequate ventilation, it is recommended that exposure does not exceed the exposure limit values. With adequate ventilation, respiratory protection is not required. The need for additional personal protective equipment, including respirators and eye and skin protection, should be decided based on a job-specific risk assessment. Additional PPE may include chemically resistant gloves and suits, goggles, and face shields. Proper eye protection is always required. Keep dry and away from sources of ignition. Keep the storage device tightly closed when not in use. Facilities storing or using such material shall be equipped with emergency eye wash and safety showers. Good personal hygiene standards should always be followed.

## 7.2. Conditions for safe storage, including any incompatibilities.

Store securely, inaccessible for unauthorized persons. Keep dry and away from sources of ignition. Store below 25°C (77°F) in original, unopened package or container.

## 7.3. Specific end use(s)

See section 1.

# SECTION 8: Exposure controls/personal protection

## 8.1. Control parameters

OEL for the Bacitracin: 0.2 mg/m<sup>3</sup>

## 8.2. Exposure controls

**Appropriate engineering controls:** For laboratory operations, use a local exhaust ventilation or ventilated chamber for high-energy operations such as shredding. Choose and use enclosed equipment and personal protective equipment based on the risk assessment. During transportation, cover all containers for storing solutions and suspensions. In the case of dust generation, exhaust ventilation or ensuring general ventilation of the room.

### Personal protective equipment:

**Eyes protection:** If contact is likely, safety glasses with lateral protection must be used.

**Hand protection:** Wear chemically resistant gloves (tested according to EN 374) while completing training specific to the specific activity. The gloves should be regularly inspected and replaced for wear, tearing or contamination.

**Skin:** Laboratory clothes.

**Respiratory protection:** As a rule, a respirator is not required for laboratory operations. Use a tight-fitting full-face respirator with HEPA filters to clean spills. Respiratory protection adapted to the task and the level of existing technical controls.

# SECTION 9: Physical and chemical properties

## 9.1. Information on basic physical and chemical properties

a)	Physical state	solid powder
b)	Color	white to off-white
c)	Odor	odorless
d)	Melting point/freezing point	250 °C (Decomposition)
e)	Boiling point or starting boiling point and boiling point range	No measured data available
f)	Flammability	combustible, but not classified.
g)	Upper/lower flammability or explosive limits	Not applicable to solids
h)	Flash point	Not applicable to solids
i)	Auto-ignition temperature	No measured data available
j)	Decomposition temperature	No measured data available
k)	pH	6 – 7.5 (filtrate of saturated solution)

l)	Kinematic viscosity	Not applicable to solids
m)	Solubility	< 0.1 mg/l (insoluble)
n)	Partition coefficient: N-octanol/water (log value)	No measured data available
o)	Vapor pressure	Not applicable to solids
p)	Density and/or relative density	No measured data available
q)	Relative vapor density	Not applicable to solids
r)	Particle characteristics	No measured data available

## 9.2. Other information

No further relevant information is available.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product is stable and does not react under normal conditions of use, storage, and transportation.

### 10.2. Chemical stability

Stable when used as intended.

### 10.3. Possibility of hazardous reactions

Under normal conditions, they are not known.

### 10.4. Conditions to avoid.

Incompatible materials, dust generation, excess heat, alkaline materials, strong oxidants, exposure to moist air or water.

### 10.5. Incompatible materials

Strong oxidants agents

### 10.6. Hazardous decomposition products

Nitrogen oxides, carbon monoxide, oxides of sulfur, irritating and toxic fumes and gases, carbon dioxide.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### a) Acute toxicity

Acute oral LD50: >3750 mg/ kg (mouse )

LD50 Intravenous - Mouse - 360 mg/kg.

**b) Skin corrosion/skin irritation:** Based on the available information the classification criteria are not met.

**c) Severe eye damage/irritation:** Based on the available information the classification criteria are not met.

**d) Respiratory or skin sensitization:** May cause an allergic skin reaction. Based on the information from therapeutic use, this substance can cause: Hypersensitivity reactions. Anaphylaxis.

**e) Germ cell mutagenicity:** Based on the available information the classification criteria are not met.

**f) Carcinogenicity:** Based on the available information the classification criteria are not met.

- g) Reproductive toxicity:** 100 g of substance per 1 ton of formula did not cause a negative effect on the reproduction of rabbits, the mass and survival of offspring.
- h) Single post-exposure specific target organ toxicity (STOT):** Based on the available information the classification criteria are not met.
- i) Specific target organ toxicity (STOT) after repeated exposure:** 13 weeks of oral administration of 1, 22, 34, 151, 250 and 500 mg/kg/day experienced only minimal effects. Based on the available information the classification criteria are not met.
- j) Aspiration hazard:** Based on its chemical structure, the product is not classified.

**11.2. Information on other hazards:** Pharmacologically active substances. Occupational exposure may cause physiological effects.

## SECTION 12: Ecological information

### 12.1. Toxicity

Bacitracin zinc	EC50	Species	Test result
Crabs	EC50	Daphnia Magna	18.1-51.2 mg /l 48 h

### 12.2. Persistence and degradability

No applicable information found.

### 12.3. Bio accumulative potential

No applicable information found.

### 12.4. Mobility in soil

No applicable information found.

### 12.5. Results of PBT and vPvB assessment

The substance shall not be considered PBT/vPvB according to the criteria in Annex XIII.

### 12.6. Endocrine disrupting properties

No such properties are known to the substance.

### 12.7. Other adverse effects

No applicable information found.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Waste treatment methods Both material and packaging waste must be handed over to a licensed undertaking for destruction.

## SECTION 14: Transport information

### 14.1. UN Number or ID number

Not Regulated.

#### **14.2. UN proper shipping name**

Not Regulated.

#### **14.3. Transport hazard class(es)**

Not Regulated.

#### **14.4. Packing group**

Not Regulated.

#### **14.5. Environmental hazards**

Not Regulated.

#### **14.6. Special precautions for user**

Not Regulated.

#### **14.7. Maritime transport in bulk according to IMO instruments**

Not relevant.

USA DOT (DEPARTMENT OF TRANSPORTATION)

**Proper Shipping Name:** Not regulated.

CANADA TRANSPORT OF DANGEROUS GOODS

**Proper Shipping Name:** Not regulated.

AIR (ICAO/IATA)

**Proper Shipping Name:** Not regulated.

VESSEL (IMO/IMDG)

**Proper Shipping Name:** Not regulated.

EUROPEAN TRANSPORTATION:

**ADR/RID HAZARD CLASSIFICATION:** Not Regulated.

U.S. CUSTOMS HARMONIZATION NUMBER: Not Available.

---

### **SECTION 15: Regulatory information**

#### **15.1. Safety, health, and environmental regulation/legislation specific for the substance or mixture**

##### **EUROPEAN UNION**

**Council Directive 94/33/EC** of 22 June 1994 on the protection of young people at work:

Must not be used by people under 18 years of age.

**Council Directive 92/85/EEC** of 19 October 1992 on the introduction of measures to encourage improvements in the safety and health at work of pregnant workers and workers who have recently given birth or are breastfeeding: The employer shall assess the working conditions and, if there is any risk to the safety or health and any effects on the pregnancy or breastfeeding of workers, take the necessary measures to adjust the working conditions.

**Implementation of directive 2001/82/EC of the European Parliament and of the council of 6 November 2001 in the Community code relating to veterinary medical products:**

Denmark: The Danish Medicines Agency (Lægemiddelstyrelsen) must be notified that this substance is produced, imported, exported, stored, sold, delivered, packed, possessed or in other ways handled in Denmark (Bekendtgørelse nr. 1226 af 7 December 2005 om omgang med visse stoffer og produkter hvis indhold kan anvendes som lægemidler til dyr.).

For other countries: Please contact national authorities regarding notification of the substance.

#### UNITED STATES FEDERAL REGULATIONS

**Superfund Amendments and Reauthorization Act (SARA) Title III 311/312 hazard categories:**

**Fire:** No      **Pressure generating:** No      **Reactivity:** No      **Acute:** No      **Chronic:** No

**313 Reportable Ingredients:** Not Listed

**Title III notes:**

**Comprehensive Response, Compensation, and Liability Act (CERCLA)**

**CERCLA RQ:** Not listed.

**Toxic Substances Control Act (TSCA)**

**TSCA Regulatory:** Exempt

**National Response Center:** US Coast Guard National Center Response Telephone +1 800 424 8802.

#### UNITED STATES STATE REGULATIONS

**California Proposition 65:** This product does not contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

#### CANADA

Workplace Hazardous Material Information System (WHMIS) hazard symbol and classification

**WHMIS Controlled:** Not regulated.

**Canadian Environmental Protection Act:** Not listed.

#### 15.2. Chemical safety assessment

No CSR is compiled because the substance is exempted.

---

### SECTION 16: Other information

**Reason for issue:** Update to include 2020/878 EU Commission regulation. Updated some physical parameters.

**Disclaimer:** Information given herein is offered in good faith as accurate, but without guarantee. Nothing is intended as a recommendation for uses that infringe valid patents or as extending license under valid patents.

---
